BRIGHT RETAIL STORES

Sales Performance Analysis Report

Full-Year 2023 | 1,000 Transactions | R7,482,960 Total Revenue

Presented to: Chief Executive Officer
Data Period: January 2023 – January 2024
Prepared by: Data Analytics Team
All values in South African Rand (ZAR) | Rate: 1 USD = R16.41 | 11 May 2026

Presentation Agenda

A structured walkthrough of Bright Retail's 2023 performance

01 **Executive Summary**
Key performance indicators at a glance

02 **Sales Performance**
Revenue trends — monthly, quarterly, daily

03 **Customer Analysis**
Gender, age group & spending behaviour

04 **Product Performance**
Category revenue, units & AOV breakdown

05 **Operational Insights**
Peak months, weekday vs weekend patterns

06 **Revenue Distribution**
Transaction tiers & price point analysis

07 **Strategic Recommendations**
Data-driven actions for growth

Executive Summary — Key Performance Indicators (ZAR)

Dataset Profile & Structure

Understanding the data behind the analysis — completeness, scope and column definitions

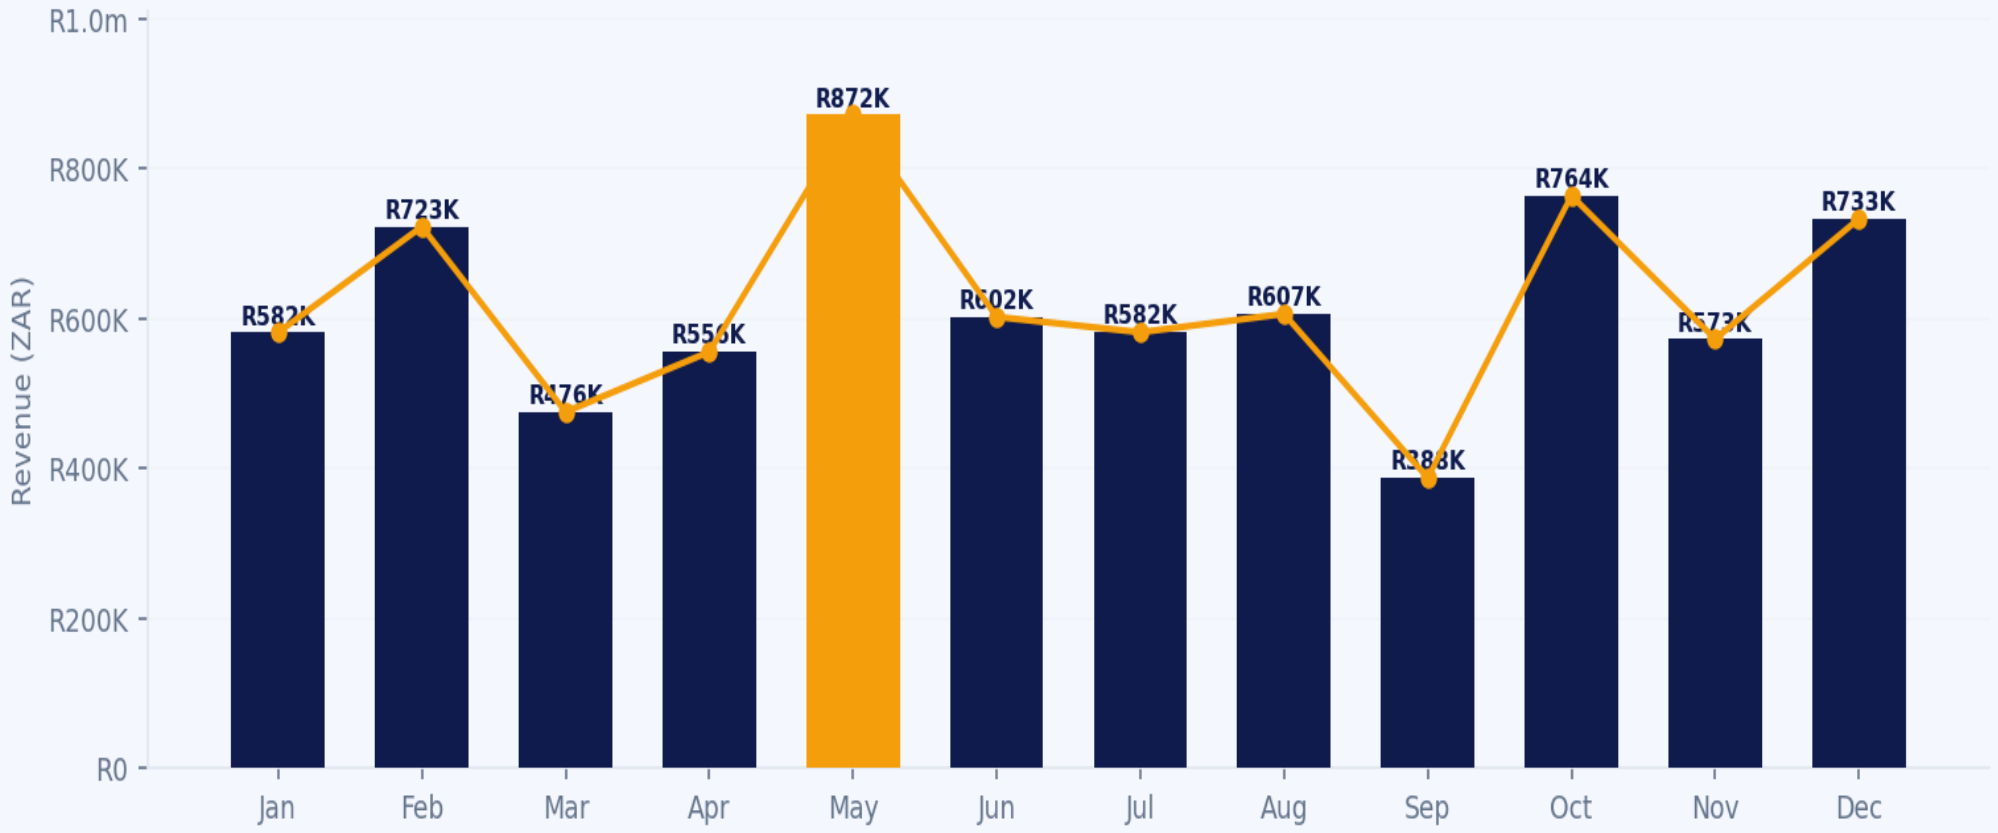
Column	SQL Name	Data Type	Range / Values	Analytical Role
Transaction ID	transaction_id	BIGINT	1 – 1,000	Primary Key
Date	sale_date	DATE	Jan 2023 – Jan 2024	Time-series analysis
Customer ID	customer_id	STRING	CUST001–CUST1000	Customer segmentation
Gender	gender	STRING	Male / Female	Demographic split
Age	age	INT	18 – 64 years	Age group analysis
Product Category	product_category	STRING	Beauty / Clothing / Electronics	Category performance
Quantity	quantity	INT	1 – 4 units	Volume analysis
Price per Unit	price_per_unit	DECIMAL	R410 / R492 / R821 / R4,923 / R8,205	Price tier analysis
Total Amount	total_amount	DECIMAL	R410 – R32,820	Revenue calculation

Rows	Nulls	Duplicates	Max Value	Rate
1,000	0	0	R32,820	1 USD = R16.41

All values in South African Rand (ZAR) | Rate: 1 USD = R16.41 | 11 May 2026

Monthly Revenue Trend — 2023 (ZAR)

Full-year revenue performance across all 12 months with peak identification



Peak: May 2023
R872,192 revenue

Lowest: Sep 2023
R387,604 — weakest

Full-Year Total
R7,457,127 (12-month)

Monthly Average
R621,427 per month

All values in South African Rand (ZAR) | Rate: 1 USD = R16.41 | 11 May 2026

Quarterly Revenue Performance — 2023 (ZAR)

Customer Analysis

Understanding who is buying — demographics, age segments and spending patterns

Customer Overview (ZAR)

Demographic profile and purchasing behaviour of 1,000 unique customers

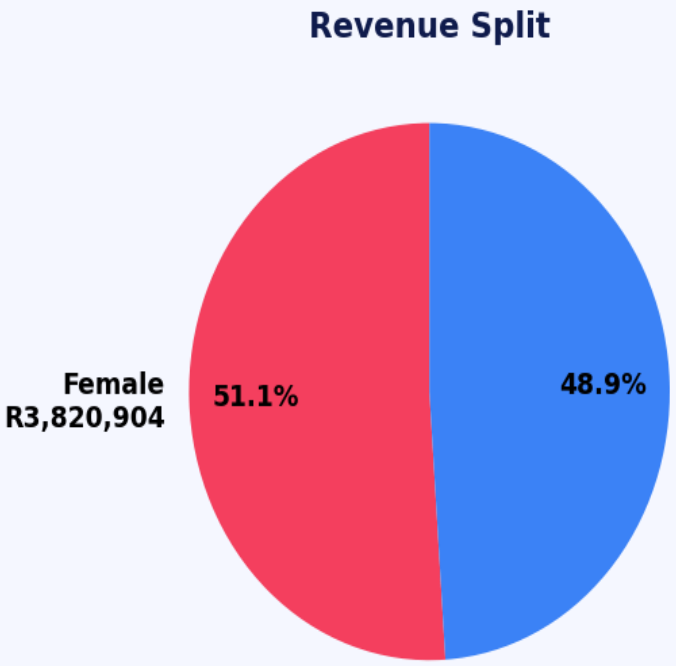
1,000	41.4 yrs	51%	49%
UNIQUE CUSTOMERS	AVERAGE AGE	FEMALE CUSTOMERS	MALE CUSTOMERS
One per transaction	Range: 18 – 64 years	510 transactions	490 transactions

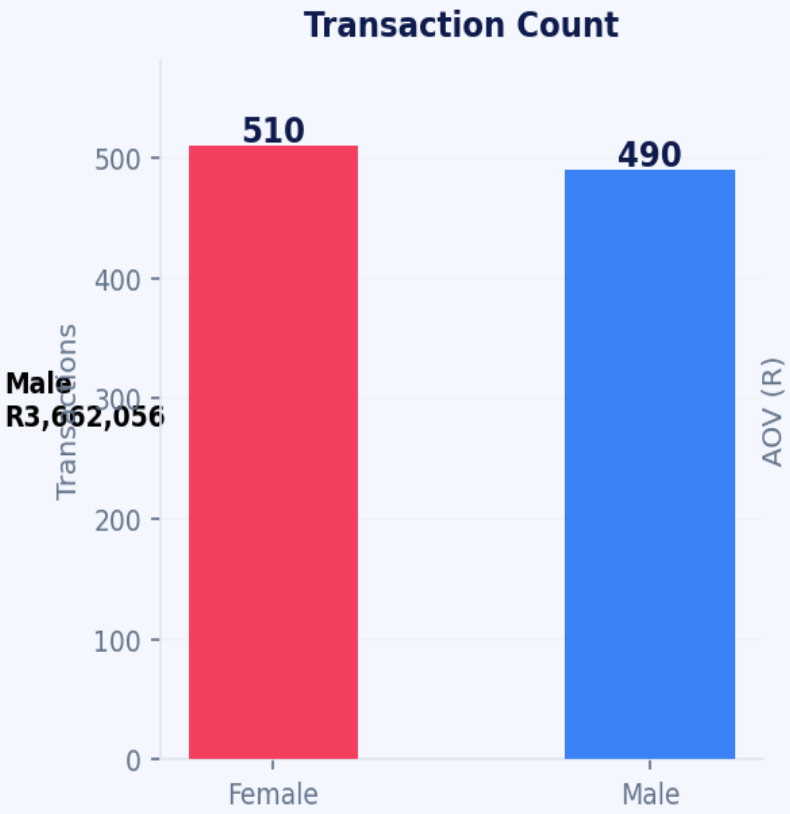
R7,492	R7,479	R8,210	R1,652,323
AVG ORDER — FEMALE	AVG ORDER — MALE	TOP AGE AOV	TOP AGE REVENUE
Slightly above male	Close to female	Age 18–25 highest spend/txn	Age 46–55 highest total rev

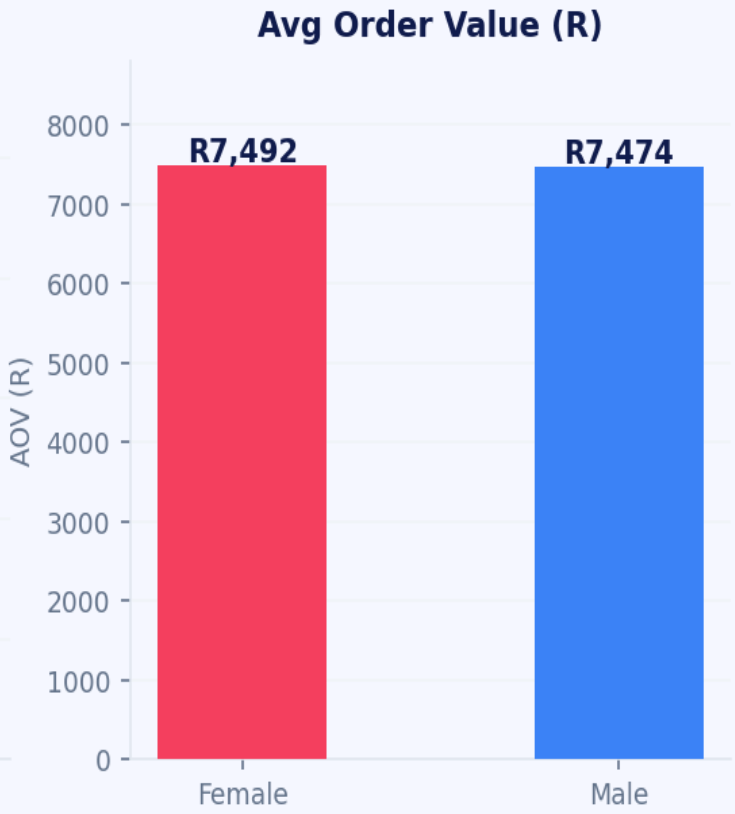
Insight: The 46–55 age group generates the highest total revenue (R1,652,323 | 229 txns), while 18–25 customers spend the most per visit (R8,210 AOV). Female customers lead in Beauty & Clothing; males lead in Electronics.

Gender Distribution & Spending Behaviour (ZAR)

Revenue, transaction count and average order value split by gender



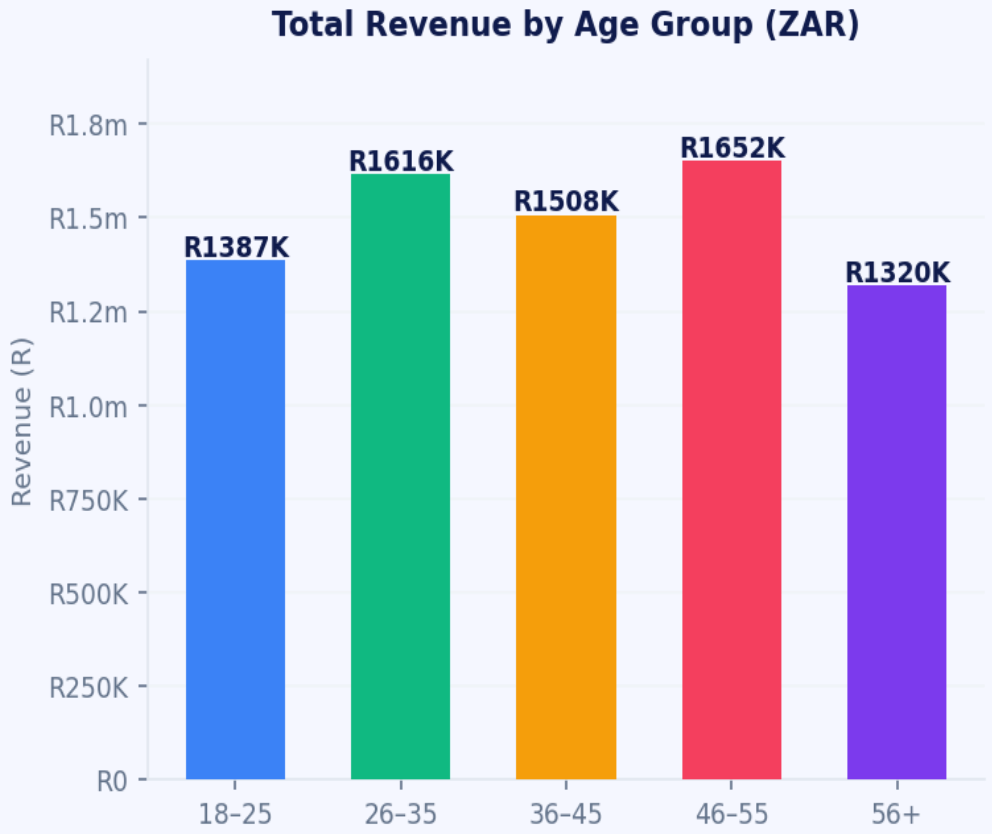


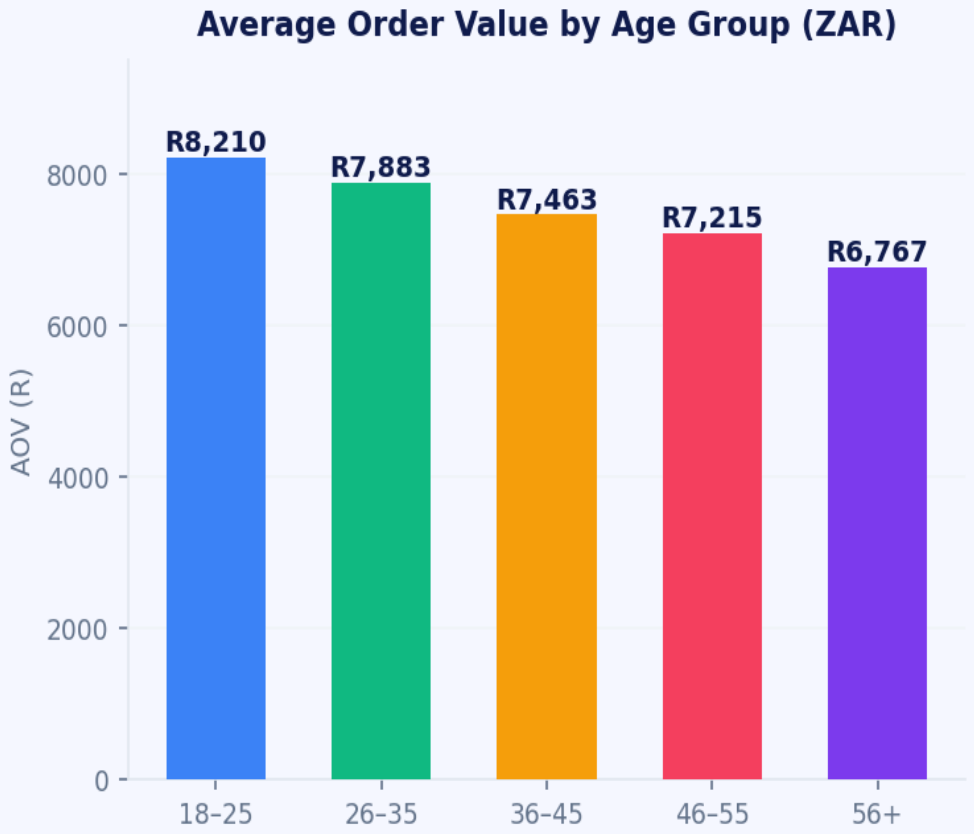


Category	Female Revenue	Male Revenue	Total Revenue
Beauty	R1,227,960	R1,127,121	R2,355,081
Clothing	R1,333,723	R1,219,345	R2,553,068
Electronics	R1,259,221	R1,315,590	R2,574,811
TOTAL	**R3,820,904**	**R3,662,056**	**R7,482,960**

Age Group Revenue & Behaviour Analysis (ZAR)

How different generations shop — revenue contribution, transaction volume and AOV





18–25 Gen Z

Highest AOV: R8,210

R1,387,466 | 169 txns

46–55 Gen X Sr

Top Revenue: R1.65m

229 transactions

26–35 Millennial

R1,616,057 revenue

205 transactions

56+ Boomers

Lowest AOV: R6,767

195 transactions

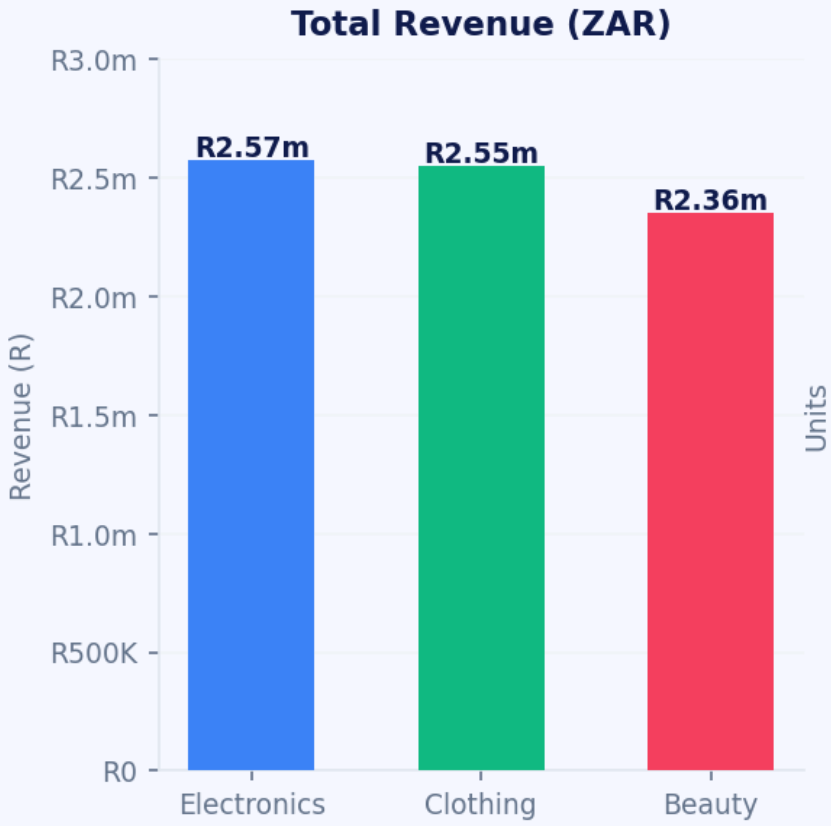
All values in South African Rand (ZAR) | Rate: 1 USD = R16.41 | 11 May 2026

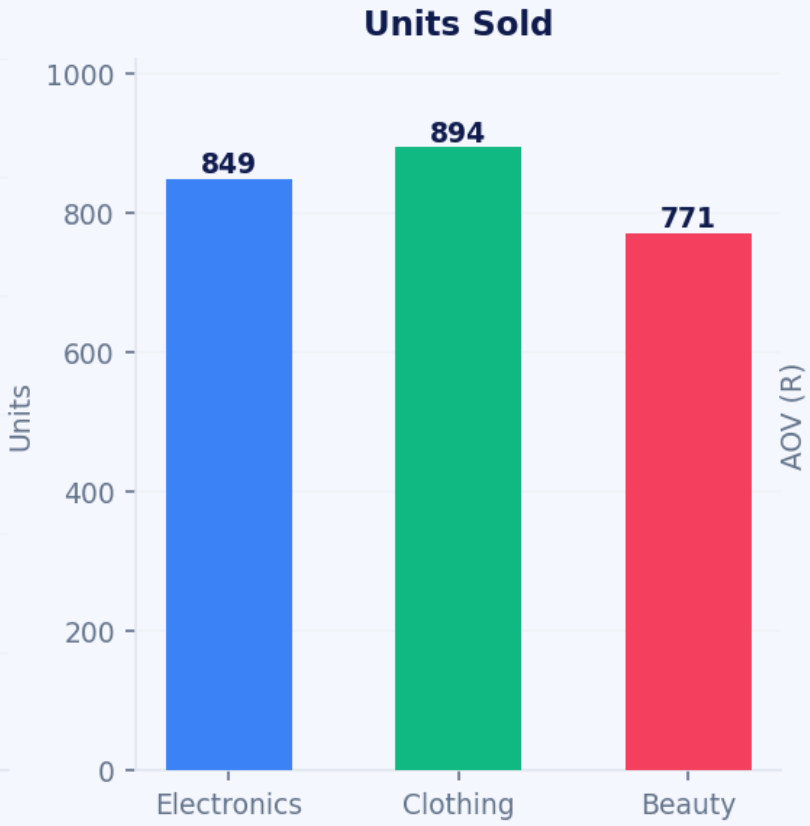
Product Category Analysis

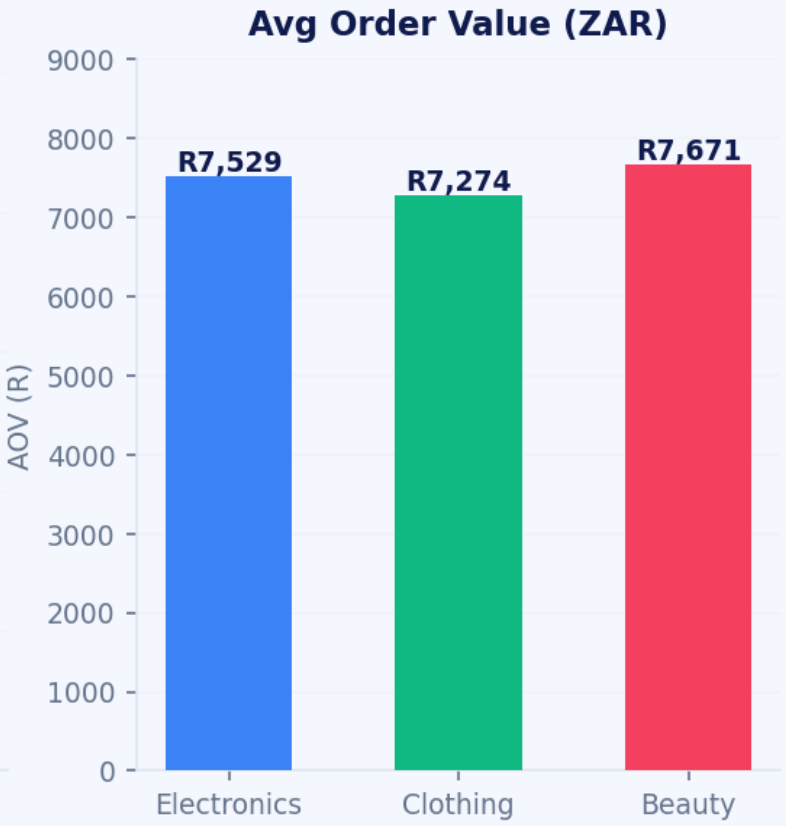
Electronics · Clothing · Beauty — performance across revenue, volume and demographics

Product Category Revenue Performance (ZAR)

Comparing Electronics, Clothing and Beauty across revenue, units sold and average order value





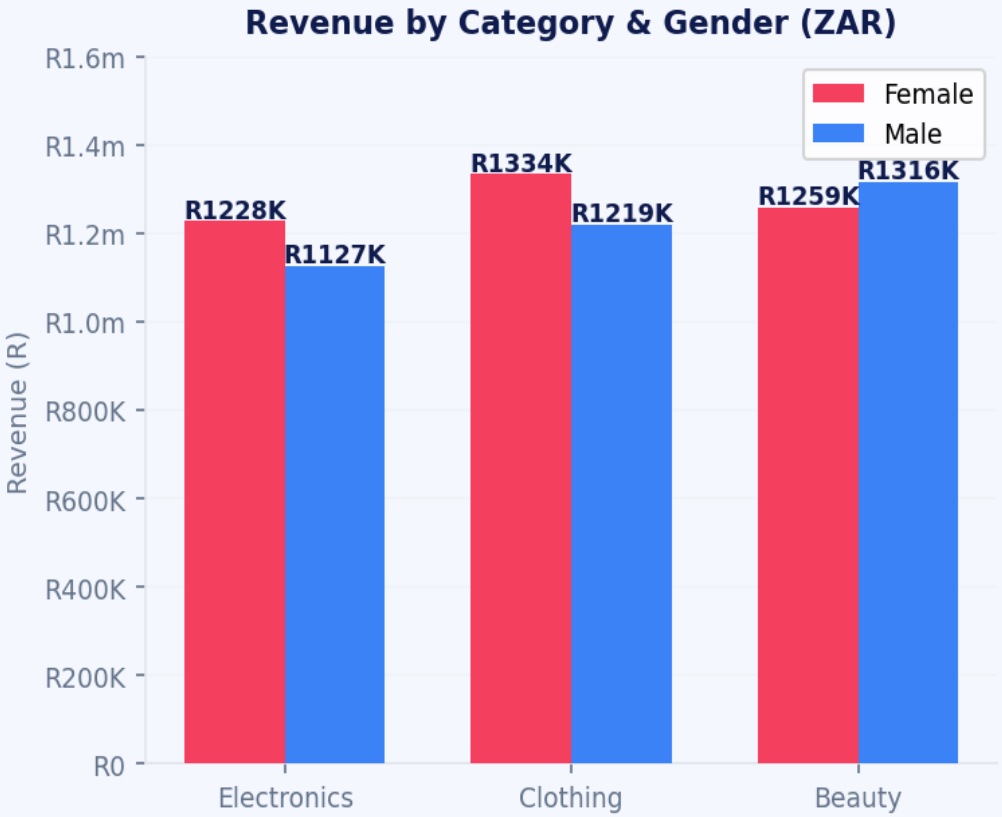


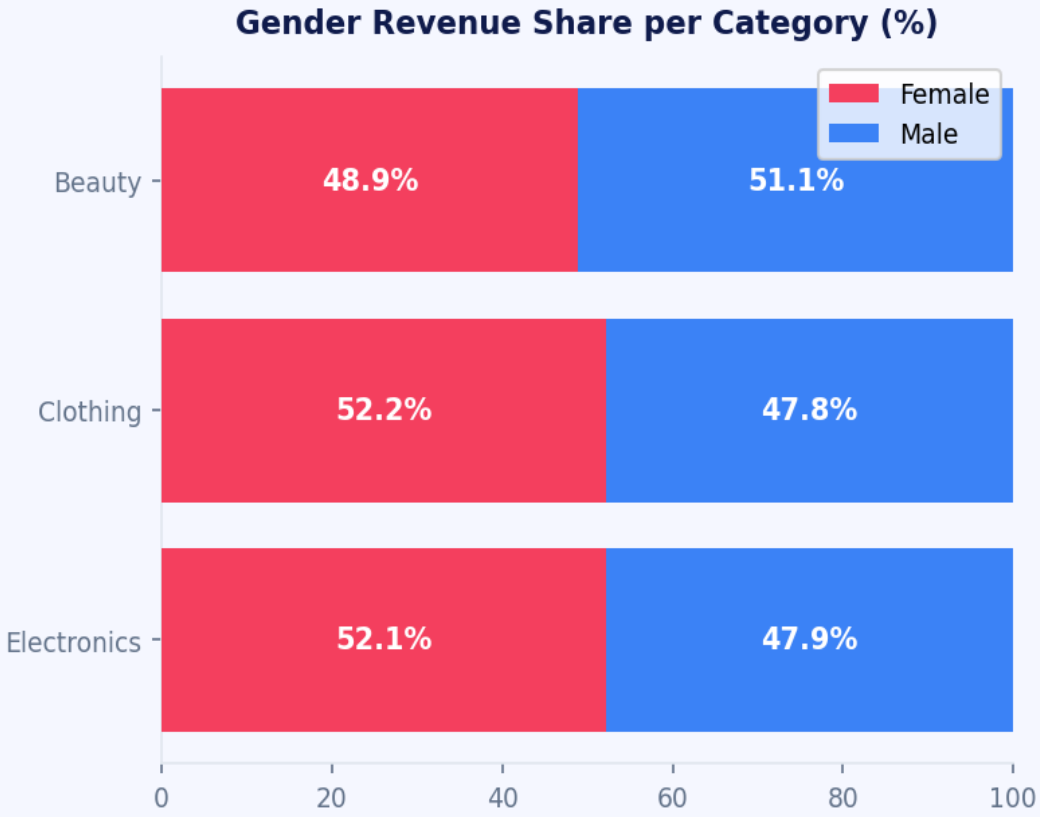
Category	Revenue	Share	Txns	Units	AOV	Rank
Electronics	R2,574,811	34.4%	342	849	R7,529	#1
Clothing	R2,553,068	34.1%	351	894	R7,274	#2
Beauty	R2,355,081	31.5%	307	771	R7,671	#3

All values in South African Rand (ZAR) | Rate: 1 USD = R16.41 | 11 May 2026

Product Category Preference by Gender (ZAR)

Understanding which categories attract male vs female customers





Beauty
Female: R1,227,960
Male: R1,127,121

Clothing
Female: R1,333,723
Male: R1,219,345

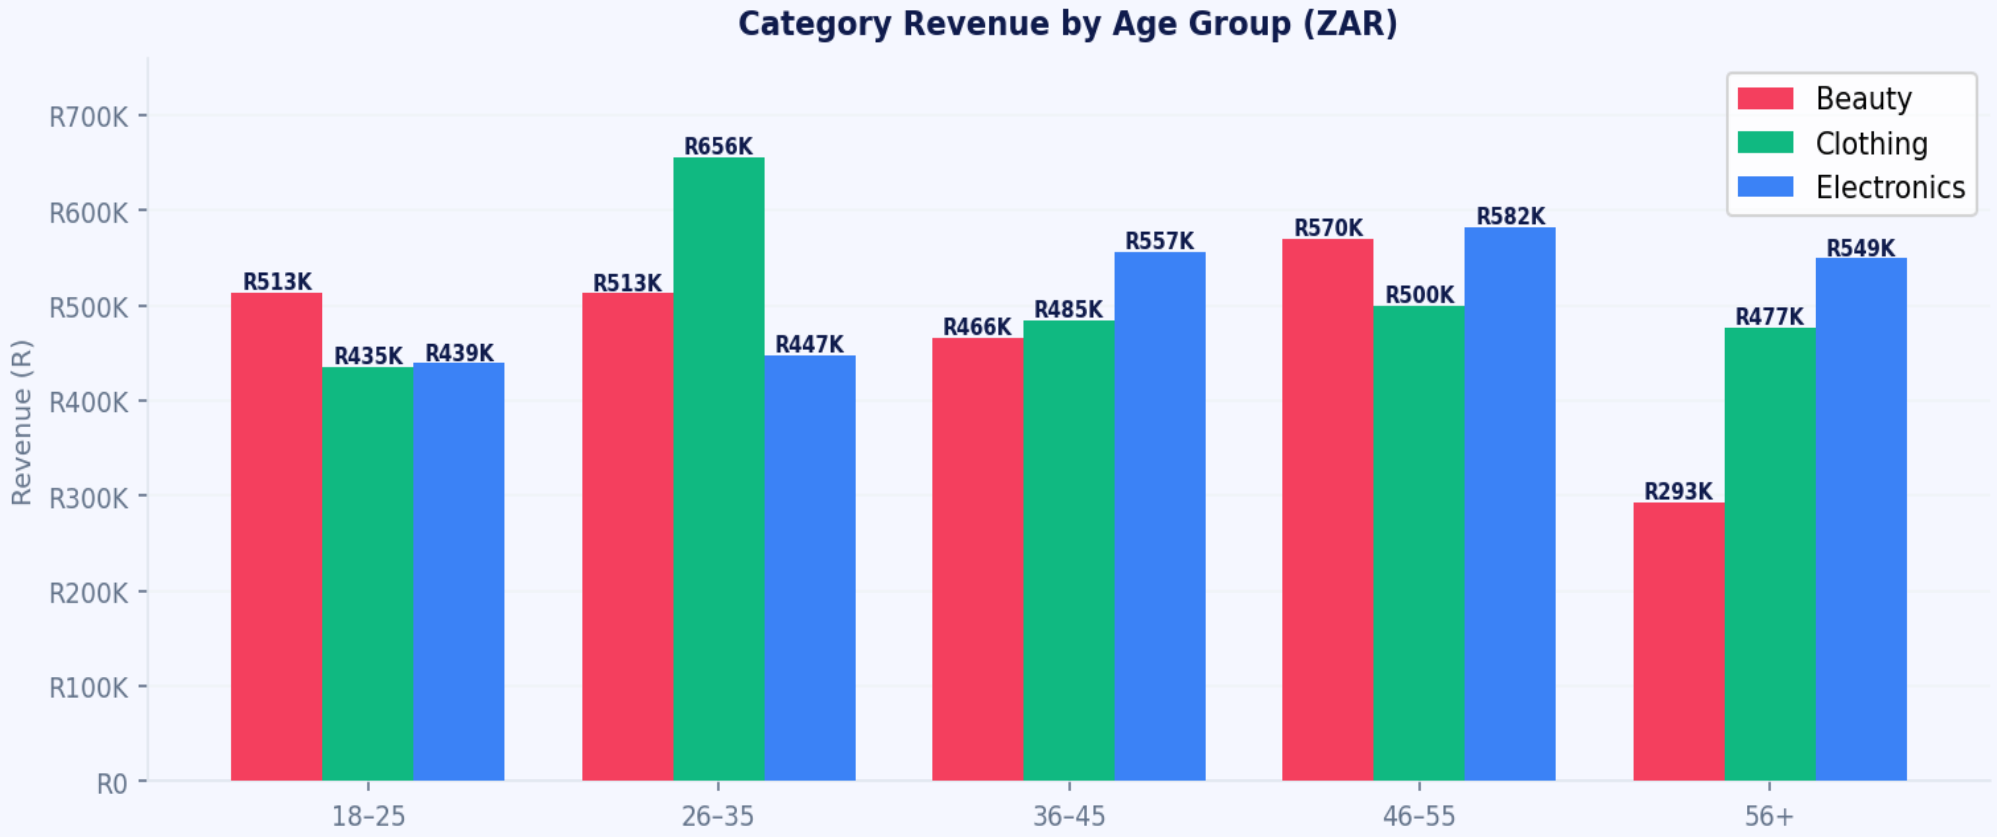
Electronics
Female: R1,259,221
Male: R1,315,590

Key Insight
Males only lead in Electronics

All values in South African Rand (ZAR) | Rate: 1 USD = R16.41 | 11 May 2026

Product Category Performance by Age Group (ZAR)

Which generations favour which product categories



- Beauty is strongest in 46–55 (R569,755) — mature customers invest in personal care
- Clothing peaks in 26–35 (R655,990) — millennials are the fashion-forward segment
- Electronics strongest in 46–55 & 36–45 — mid-career buyers are the most tech-invested
- Gen Z (18–25) spreads spending evenly across all 3 categories (R439K–R513K range)

All values in South African Rand (ZAR) | Rate: 1 USD = R16.41 | 11 May 2026

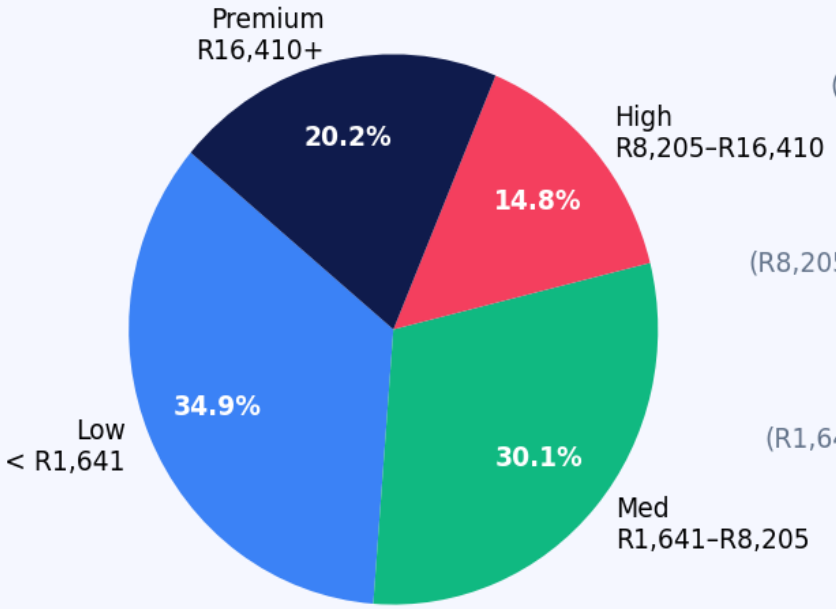
Operational Insights

Revenue distribution, price tiers and transaction value segmentation

Transaction Revenue Distribution (ZAR)

How transactions are distributed across Low, Medium, High and Premium value tiers

Transaction Count by Revenue Tier



Transaction Count

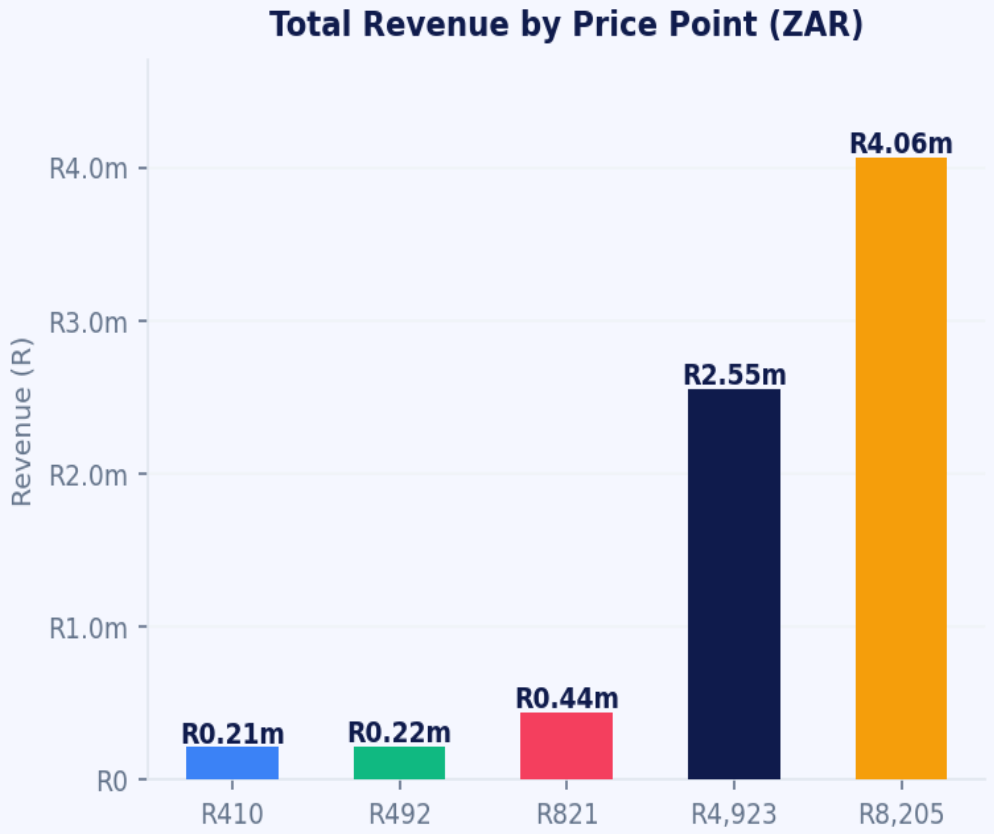
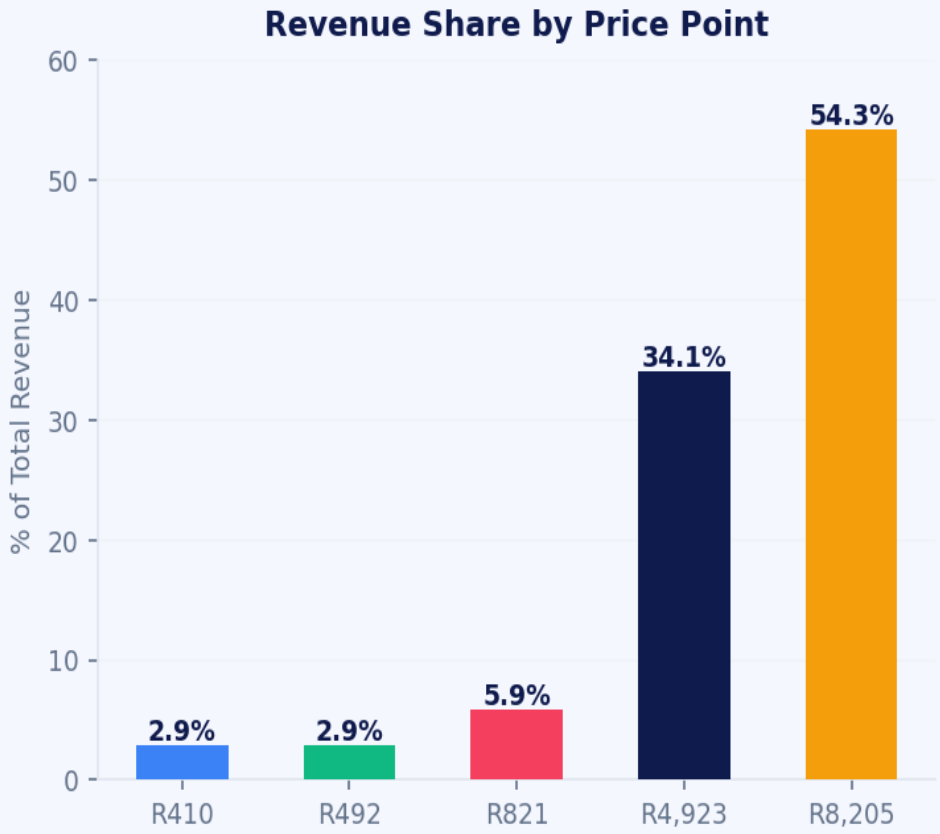
Top-tier Electronics

All values in South African Rand (ZAR) | Rate: 1 USD = R16.41 | 11 May 2026

Price Point Analysis (ZAR)

Revenue contribution by unit price — five distinct price points drive all sales





Price/Unit	Transactions	Revenue (ZAR)	Rev Share	Category
R410	210	R214,150	2.9%	Budget Beauty/Clothing
R492	183	R219,074	2.9%	Budget Beauty/Electronics
R821	211	R438,147	5.9%	Mid-range all categories
R4,923	197	R2,550,114	34.1%	Premium Electronics

Strategic Recommendations

Data-driven actions to accelerate revenue growth and customer engagement

Strategic Recommendations for Growth

Six key actions derived from the data analysis to maximise retail performance

01 Capitalise on May & Q4 Peaks

Increase marketing spend and inventory 6 weeks before May and October. Q4 generated R2,070,778 — the strongest quarter. Pre-position premium SKUs.

02 Recover September & March Slumps

Sep (R387,604) and Mar (R475,726) are significantly below peak months. Launch targeted promotions, flash sales and loyalty incentives in these windows.

03 Invest in 46–55 Age Segment

This cohort generates the highest total revenue (R1,652,323 / 229 txns). Create loyalty programmes and exclusive offers tailored to their preferences.

04 Boost Weekend Premium Strategy

Weekend AOV (R7,830) exceeds weekday (R7,343). Schedule premium product launches, in-store events and upsell campaigns for Saturday specifically.

05 Grow the R8,205 Price Point

R8,205 SKUs contribute 54.3% of all revenue from only 199 transactions. Expand premium SKU range and create bundle offers at this tier.

06 Target Electronics for Males, Clothing for Females

Males generate 51.3% of Electronics revenue (R1,315,590); Females lead Clothing (52.2% — R1,333,723). Personalise campaigns by gender × category.

BRIGHT RETAIL STORES

Summary & Next Steps

R7.48m	R2.07m	R872K	54.3%	R8,210
Total 2023 Revenue	Best Quarter (Q4)	Peak Month (May)	R8,205 SKU Revenue Share	Gen Z Avg Order Value

Next Steps:

→ Connect enriched_sales Delta table to Power BI for live ZAR dashboards

→ Implement September & March promotional calendar immediately

→ Launch 46–55 loyalty programme targeting R1.65m segment by end of Q1 2024

→ Expand R8,205 price-point SKUs across Electronics and Clothing

→ Configure automated monthly KPI alerts via Databricks SQL Jobs
